## PDS (Property Development Scheme) in Mauritius

The Property Development Scheme (PDS) is the new property law regulation incorporated in Mauritius since 2015. Replaced by the previous schemes namely Integrated Resort Scheme (IRS) and Real Estate Scheme (RES) respectively, the PDS allows the development of resident units for sale to non-citizens, citizens and members of the Mauritian Diaspora.

The PDS scheme will be based on the same Acts of law in Mauritius as for IRS and RES schemes: the Investment Promotion Act of 2000, the Investment Promotion Regulation of 2007, the Regulation of Investment Promotion of 2009 and its amendments.

This scheme does not enforce any minimum buying prices on PDS properties, thus allowing a foreign investor to invest or take advantage of Mauritian tax benefits. The foreign investor is eligible for a residence permit upon the purchase of a villa under the PDS scheme when the investment cost is more than USD 500,000 or its equivalent in any freely convertible foreign currency. Also, the PDS does not differentiate between small and big landowners and thus the registration fee has been standardized for all purchasers at 5%

## Mauritian tax residence

To be a Mauritian tax resident, you must first obtain a residence permit by purchasing real estate costing more than 500,000 USD or be in possession of an Occupation Permit. You must also reside in Mauritius at least 183 days per year.

Mauritian tax benefits:

Income tax is of only 15%

There is no tax on wealth

No tax on capital gain when reselling your property

No social security tax, property tax or housing tax

## Grand Bay

The northern part of the island is a lush hemmed of beaches and lagoons with translucent blue. The island benefits from a tropical climate in summer, as well in winter.

Grand-Bay remains the crown jewel's part of the island with the most famous holidays resorts and its seaside. Cultural life on coastal village and festive events will punctuate the seasons all year-round.

## Mauritius

Most research conducted and published show that Mauritius cultivates sustained growth. The country serves as a gateway to the East and Africa, creating various opportunities for affairs. Its multi-ethnic composition offers a cultural diversity in a peaceful Mauritius where it is good to live.

Its time zone (GMT + 4) allows easy communication to all continents.
